■ "Student List" for nomination

Attached please find a "Student List" for nomination.

We would appreciate if you could send the list as soon as you finish your inner selection of candidate students.

■ Notes: Date of graduation

Please make sure that your students enroll their home institution until they finish their exchange program.

In the past years, there were some cases in which exchange students wished to graduate from the home institution before finishing their exchange program at Meiji University.

As this exchange program is based on agreements between our partners and our university, participants of the exchange program of the SPSE of Meiji University are required to be enrolled in their home institution until they finish their program.

We understand academic calendar and system are different in each country, however, please be aware of this point when selecting candidates.

If you have any questions, please feel free to contact us.

We are looking forward to nominations from our partners!

With best regards,
